

## SOUTH BAY TRAP LEAGUE NEWS – APRIL, 2006

The view from Livermore-Pleasanton Gun Club on March 11 was great!! The snow on the hills made for a beautiful view. Unfortunately, too many people believed the weather report because attendance was only 102 participants compared to 150 last year. Except for a slight chill early in the day, it was a good day for shooting. Our thanks to Ray, Bill, Bart, Tom, Chuck, and the other club members who worked diligently to get us finished before 5:00 PM.

Our next shoot is on April 8 at Sunnyvale Rod & Gun Club. The office opens at 8:00 AM with shooting at 9:00 AM.

I want to welcome our new shooters. They were: Sam Mercado – MC; Bill Reynolds – LV; Don Raine – NV; and Andrew Lee – SV. We hope to see you often at SBTL events.

The number of shooters receiving this newsletter via the website continues to grow. You can go directly to the website at any time or you may request an email notice that the site has been updated with the latest news. Unless you specifically request a written copy, we will not mail to shooters on the email list.

Once again, if you shoot a semi-auto, please remember that SBTL rules state “**all guns must be equipped, fitted, and utilized so as to not eject empty shells in a manner that substantially disturbs or interferes with other shooters.**”

Once again, we had a number of “short squads” (2 or 3 people each). A few changes and/or shifts have been made in the presquad list to improve the odds that the first few squads will be full. The updated list is printed elsewhere in the newsletter. In the event that a squad has an open position, the Handicap Committee will fill that position(s), at their **own discretion**. Full squads make for a smoother shoot and more smiles. For changes or additions (plan on shooting 5 or more times) to presquading, call 408-395-0140 and leave a message before the Thursday preceding a shoot.

**Rule Notes:** There was a malfunctioning trap at the March shoot. Several targets had been scored before moving to a different field. Undoubtedly, the malfunctioning trap caused some lost targets, but there is no provision for reshooting a target once it is scored. If a machine gets adjusted or replaced, targets scored before the change cannot be shot over.

The **Failure to Fire Rule** is the most difficult rule to remember. If for almost any reason a shooter does not fire at an “on time” target, it is a “failure to fire.” Two (2) are allowed per sub-event. All others are scored as lost targets. In doubles, you must break the first target to have an allowable “failure to fire” on the second target.

A wad which does not clear the barrel normally is a “failure to fire”, except when it would be a third or more failure to fire – then it is lost!

Hope to see you at Sunnyvale. B.J.
