

SOUTH BAY TRAP LEAGUE NEWS –JUNE, 2006

There were 112 shooters at Waterford. This was a good turnout, and we had a nice day for shooting – if you don't mind a little wind. Phil Priola and his crew kept everything going well. I'm told that Phil had some strong words with Trap 3. After that, the machine behaved itself, and we finished at a reasonable time.

Our next shoot is on June 10 at Newman Swamp Rats club. The office will open at 8:00, and shooting starts at 9:00. We will start two squads at a time in both the 16 yard event and Handicap. We will use four fields for Doubles and the practice trap for the .410 event.

I want to welcome our new shooters. They were: Dean Russell, Ron Sousa, Gary Bettencourt, and Larry Azevedo – WA; Richard Gass and Steve Dicherico – NV; Jason Snow – MC; and Warren Price – LV. In addition, returning shooters were Ron Snow – MC and Zachary Azevedo – WA. Please keep SBTL on your calendars!

The updated presquad list is printed elsewhere in the newsletter. There are a few changes and a few deletions. For changes or additions to presquadding, call 408-395-0140 and leave a message.

Rule Myths: First among my favorite myths concerns the Squad Leader. You will hear that the Leader speaks for the squad, is the only one who can correct a mis-called target, or ask to have the trap adjusted. **All wrong!** The Squad Leader is just another shooter with two minor exceptions: The leader is the only shooter who can ask to see a target before the subevent starts and must initial and check the score sheet before leaving the field, but is not responsible for bad arithmetic.

Number two: Once a squad has shot a field, a subsequent squad cannot ask to have the machine adjusted. **Not true.** If a trap is throwing targets that, although not necessarily illegal, appreciably vary from other traps, **any shooter** may request a reset. Shoot management has the final word on resetting. If you think a reset is called for, check with your squad. The other shooters may like the targets.

Number three: If two or more shooters call a target "Dead," then it is dead. **Not necessarily.** The scorer is the referee and has the final say unless there is a separate, designated referee. If you see a piece, call it – just to be sure. Most scorers will respond positively. If it is your target in question, ask the squad if they saw a piece. If there is no support, live with the called results.

Hope to see you at Newman. B.J.
